INNOVACAR

X1 INTERIOR MIST

Description:

X1 Interior Mist by Innovacar is a newly developed interior quick detailer designed for quick cleaning and daily care of the car interior. It is suitable for plastics, vinyl, leather, faux leather, lacquered surfaces, piano black finishes, screens and interior glasses.

Main features:

- **Biotics Technology:** the product is enriched with patented* probiotics for deep cleaning**. Its formula has been developed to complement standard cleaning with a more advanced approach to the care of interior surfaces, highlighting its innovative properties.
- **SiO_2 Technology**: This is a siloxane-based technology that leaves a lightweight protective barrier on the surface, helping it to stay cleaner and easier to maintain.
- **2-in-1 product**: the ideal solution for streamlining your interior cleaning routine. X1 Interior Mist combines the cleaning power of an interior cleaner with the finishing effects of a polish.
- **UV protection**: regular use helps to protect surfaces from UV rays and preserve their original appearance, whilst reducing the build-up of dust on the dashboard, door panels, centre console and plastic surfaces.
- **Elegant finish:** enhances the appearance of surfaces, leaving a satin-like, even and natural finish without any artificial shine or greasy residue.
- **Quick clean:** ideal for daily cleaning of dust, fingerprints, light dirt and everyday grime.
- **Versatile use**: suitable for plastics, vinyl, rubber, leather, faux leather, lacquered surfaces, piano black, LCD screens and interior glass, ideal for both enthusiasts and professionals who need to treat multiple vehicles quickly and effectively.
- **Cleans, removing germs and bacteria:***** it helps remove germs and bacteria*** along with the dirt.
- **Anti-fog action:** helps prevent the inside of the windows from misting up and improves clarity and visual comfort.

* Patent application no. 14730984.3
** Compared to the version without probiotics.
*** The statements “protects against germs or bacteria” or “removal of germs and bacteria”, if present, refer to a physical or mechanical action. For example, the mechanical action of the cloth exerted by the operator also allows the removal of germs and bacteria on the treated surface, along with the dirt.

How to use:

How to use X1 Interior Mist:

- Shake X1 Interior Mist well before use.
- Spray the product onto a clean microfibre cloth or directly onto the surface to be treated.
- Apply evenly, one section at a time.
- Finish with the dry side of the cloth or with a second clean cloth until achiving a uniform result.

For glass: apply evenly and polish thoroughly with a clean, dry microfibre cloth.

For LCDs and touchscreens: always spray onto the cloth, never directly onto the display.

Use: use the product undiluted.

Attention:
When handling the product, observe the advice on the safety data sheet.

Technical properties:
Appearance and colour: light blue liquid
Odour: characteristic
pH: 10,7 ± 0,5
Flash point: > 60 °C
Relative density: 0,99 g/cm3 ± 0,05
Solubility in water: soluble
Solubility in oil: partially soluble

Storage:
In unopened packaging and stored away from direct sunlight and frost.

Packaging:

PACKAGING	BOX	ITEM CODE
BOTTLE 500 ml	6 pcs	702728 (public)
